

FIXED ALUMINUM CAGED LADDERS

AscendFab Aluminum Ladders represent the highest quality aluminum fixed caged ladders available. Designed for attachment to structures allowing safe access to roof hatches, Ascend ladders satisfy or exceed the most stringent code requirements for general commercial and industry applications including **OSHA 1910.27** and **ANSI A14.3**.

THE BENEFITS OF SUPERIOR, HIGH QUALITY ALUMINUM CONSTRUCTION:

- ✓ Conservative, heavy duty design parameters providing the highest quality aluminum construction available.
- ✓ All aluminum construction is virtually maintenance free and is easy to install versus other ladder products.
- ✓ Never requires painting
- ✓ Unmatched quality of Ascend's proprietary run design at 1.5" diameter
- ✓ Provides easy roof hatch access with cage enclosures and safety platforms at rest intervals
- ✓ Special engineering and customization of landing platforms are available.
- ✓ Special engineering, stamped calculations and PE stamps can be provided for any U.S. location at additional cost.
- ✓ Comes with standard mill finish. Anodized or powder coated finishes are also available.
- ✓ Exceeds code analysis (see engineering)
- ✓ Safety lock-out cage, security door and safety climb devices are available.
- ✓ All aluminum construction with stainless steel hardware
- ✓ Can be shipped to the jobsite broke-down, crated and wrapped, or assembled in larger sections.
- ✓ Standard Ascend ladder assemblies are stocked and available for prompt shipment.

BEST ALUMINUM LADDER DESIGN IN THE INDUSTRY!
